HIGH TECH FOR THE DOOR

Slides and Hinges from Mochen are the heart of good cabinets and doors: innovative, reliable, long lasting. They provide top quality as well as clever mounting and adjustments capabilities. Hinges should allow the door to swing easily and with minimum friction. A Slide should withstand the forces exerted on cabinets. Furthermore, correctly specified Slides and hinges should perform to the requirements for a long period of time, which ultimately offers better value for money.

COMPACT AND VERSATILE

With these mechanical hardware, our doors closes in a controlled manner, preventing it from slamming, after someone opens it. The force used to open the door is stored in the spring and when released this energy is then utilised to return the door to its original starting position.

They take care of the controlled movement sequence and offer the following advantages:

- Simple installation
- Compact design
- Integrated damping
- Definable spring characteristic and extension speed
